Willdom @ TRX Training ~3 yrs

Senior Product Designer

Nov 2022 - Present

- Built the user behavior tracking system using Indicative (currently mparticle analytics), producing monthly Product dashboards.
- Boosted “Video Completion Rate” from 21% to 46% in a month, by redesigning discovery features (filter and navigation).
- Created and maintained the TRX design system for all their products.

VIRTUALhaus 7 mos

Senior UX/UI Designer

Mar 2022 - Sep 2022

I was the first design hire at this growth-stage startup, responsible for designing the MVP, creating and implementing the design system.

- Defined and tested end-to-end user flows, from sign-up and portal access to 2D editing and the 3D shop.
- Developed UI guidelines in alignment with brand standards.
- Enhanced the 2D drawing experience by implementing cursor modifications and improving icon for clearer communication.

Prey 10 mos

UX Content Designer

Jun 2021 - Mar 2022 (Contract, Part-Time)

- Defined user journeys for new features; using info gathered by Customer Support, and technical research provided by stakeholders.
- Created wireframes to plan the information architecture of screens.
- Wrote user interface copy and microcopy in English and Spanish.

Itaú Unibanco 10 mos

UX Designer

Jun 2021 - Mar 2022

I was part of the “Market Disruption” team within a traditional bank and focused on exploring and designing new market products, including e-commerce solutions, commercial payment points, and small business point-of-sale systems.

- Conducted competitive benchmarking of personal finance apps to define user flows.
- Executed a UX evaluation of the eCommerce website using Heuristics identifying and addressing issues.

Quanto 9 mos

UX/UI Designer

Sep 2020 - May 2021

I was the first design hire at this early-stage fintech startup, where I designed new features for the mobile apps.

- Expanded the existing design system to add components, and redesigned elements with auto layout.
- Conducted user feedback sessions to find UX errors on the sign-up flow.

Earlier Design Experience

Graphic and Motion Design

Sep 2015 to Aug 2020 · 5 yrs

Before I started my career in product design, I worked as a graphic and motion designer. I delivered brand identity, video content, social media graphics, packaging design and prints for ads. Using tools like Adobe Photoshop, Illustrator, After Effects, InDesign and Figma.
